

Women Can Fly, a series of three special Saturday events scheduled for June of 2015, will introduce aviation to more girls and women of all ages in Virginia.

The event will provide a variety of enjoyable and educational experiences, including aircraft static displays, tours of facilities, simulation opportunities, and a flight in a general aviation aircraft.

By providing information with hands-on experiences and demonstrating the sheer fun of flight, our goal is to encourage participants to fly recreationally, become a private pilot, or pursue a career in aviation. Representatives from the airlines, military, business and recreational aviation will be invited to showcase aviation's diverse field for career opportunities.

Today, women pilots represent only 6% of the total pilot population. Women Can Fly intends to improve upon this statistic by making an appeal to all future female pilots.

Women Can Fly is co-sponsored by The Ninety-Nines, Inc. (International Organization of Women Pilots), Liberty University, Freedom Aviation, Virginia Department of Aviation, and participating airports. Mark your calendars for these three special Saturday events.

Join Women and Girls
from across the
Commonwealth of Virginia
for a fun day of aviation events!

Plan to attend on June 13, June 20,
or June 27, 2015

*Online Registration begins on
March 1, 2015*

Lynchburg Regional Airport

June 13, 2015

10:00 a.m. - 3:00 p.m.

PRE-FLIGHT BRIEFING

- Prepare for your flight by learning about the aircraft controls and safety procedures.

STATIC AIRCRAFT DISPLAY

- Have a close up look at several types of aircraft and talk with the pilots who fly them. You may be able to sit inside and move the controls from the pilot seat.

MEET AND GREET

- Talk with women aviators, student pilots, and professionals who will be happy to discuss their experiences and answer any questions, including how to get started with flight training or learning about career opportunities in aviation.

SIMULATOR RIDES

- Get a chance to fly in Liberty University School of Aeronautics Simulators, which have been upgraded and received National Simulator Program Certification (NSP). This certification makes the simulator "feel" just like the aircraft.

COMPLIMENTARY AIRPLANE RIDE!

- Enjoy a flight in a private airplane with volunteer pilots who would love to share their passion with you! If you are sitting up front, you may get the chance to move the controls yourself!

Hampton Roads Executive Airport

June 20, 2015

10:00 a.m. - 2:00 p.m.

PRE-FLIGHT BRIEFING
