Sponsors with state funded projects (non-AIP projects) that were approved by the VAB need to submit an Airport Capital Project application to the Virginia Department of Aviation (DOAV) within 60 calendar days of the VAB meeting. DOAV will use the project application to prepare a grant agreement that will be offered to the sponsor for execution. Project related activities undertaken before a grant is executed will not be eligible for state reimbursement. No state reimbursements will be made until an executed grant agreement has been received by DOAV. Information on the application and grant process to be followed by all sponsors is provided in section 6.5 Agreement Process of DOAV's *Airport Program Manual*, available online at [www.doav.virginia.gov](http://www.doav.virginia.gov).

Tentative allocations for state funded projects that have not been put under grant within 60 calendar days may be withdrawn by the VAB.

Projects were disapproved due to either the lack of available state funding, incomplete technical elements of the request, or unmet eligibility criteria. Sponsors with projects that were disapproved should contact their assigned DOAV planner or engineer for assistance in resolving any outstanding issues. The funding requests and supporting documentation that were entered into Airport IQ for these projects have been returned to the Grant Requests module in Airport IQ. Sponsors should revise the request data as needed and submit the projects for the VAB meeting at which they want the request considered. Unfunded project requests will not be automatically resubmitted by the Airport IQ program or by DOAV.
