REGISTER: <https://bit.ly/KOKV-WINGS>

1330: Information from local flight schools

Join us for an Aviation Day!

Winchester Regional Airport and the AOPA Flying Clubs Team have joined forces to bring you a day of in-person aviation education and entertainment.

The day starts at 0900, with the Flying Clubs Team presenting *Maximum Fun, Minimum Cost: The Wonderful World of Flying Clubs*. You've earned your pilot's license—now what? Join us to learn about how flying clubs help you get the most out of your pilot's license, share the cost of ownership & operations, and take control of your aviation journey alongside like-minded aviators.

At 1030, we'll dive into the first segment in our two-part safety seminar for the day. In Part 1 of "Expand Your Horizons" we'll explore why we need to train our ground-dweller brains to respond appropriately to situations in the air. This is really interesting stuff!

We'll break for lunch at 1130— EAA Chapter 1301 grill. Donations of \$5 per person appreciated—bring cash!

At 1230, we'll continue with Part 2 of "Expand Your Horizons". Following on from what we learnt in Part 1, we'll develop some practical ideas for initial and recurring proficiency training that will keep us on top of our game—and, phew, it doesn't have to involve spin training or aerobatics!

Looking for a place to learn to fly or rent an aircraft? Stay with us at 1330 to hear from local flight schools.

All seminars will take place in the conference room.
